SUMMARY

B.Tech graduate and Full Stack Web Developer with hands-on experience building responsive, scalable web applications using Python, Django, Flask, React, JavaScript, and MongoDB through academic and personal projects. Proficient in both frontend and backend development, RESTful API design, database management, and deployment workflows. Passionate about creating clean, efficient, and user-friendly web experiences. Seeking a Web Developer / Full Stack Developer role to contribute to impactful real-world products.

EDUCATION

2022 - 2026	B.Tech in Computer Science and Engineering (AIML) at Gandhi Engineering College, Bhubaneswar	(SGPA: 7.5/10)
2020 - 2022	Intermediate — Science Stream (PCM)	(Percentage: 72.2%)
2018 - 2020	Matriculation	(Percentage: 76.2%)

SKILLS

Frontend Development	HTML5, CSS3, JavaScript (ES6+), React.js, Bootstrap, Responsive Web Design, DOM Manipulation
Backend Development	Python, Django, Flask, REST API Development, Authentication (JWT, Session), MVC Architecture
Database Management	MySQL, MongoDB, Database Design, ORM (Django ORM), CRUD Operations
Tools & DevOps	Git, GitHub, VS Code, Postman, Render, Vercel, Netlify (Basic Deployment)
Other Skills	SDLC, Agile Basics, Object-Oriented Programming, Problem Solving

PROJECTS

Personal Portfolio Website	HTML5, CSS3, JavaScript
Designed and developed a fully responsive personal portfolio website to showcase skills, projects, and contact information. Implemented smooth scroll navigation, animated hero section, project cards with hover effects, and a working contact form using JavaScript. Applied CSS Flexbox and Grid for layout. Ensured cross-browser compatibility and mobile responsiveness across all screen sizes. Deployed on GitHub Pages for public access.	

Blog Application	Django, Python, SQLite, Bootstrap
Built a fully functional blog web application using Django framework with user authentication and authorization. Implemented features including user registration and login, create/read/update/delete (CRUD) blog posts, comment system, and category-based filtering. Used Django ORM for database interactions with SQLite. Designed a clean, responsive UI using Bootstrap. Configured Django admin panel for content management. Applied form validation and CSRF protection for security.	

Task Management App (To-Do)

React.js, JavaScript, CSS3, LocalStorage

Developed an interactive task management single-page application (SPA) using React.js. Features include add, edit, delete, and mark tasks as complete, priority labelling, and category filtering. Utilized React Hooks (useState, useEffect) for state management and component lifecycle. Persisted user data using browser LocalStorage to retain tasks across sessions. Built reusable components with clean, modular code structure. Applied responsive CSS styling for a polished user experience.

E-Commerce Platform (Full Stack)

Python, Flask, MongoDB, React, JavaScript

Developed a complete full stack e-commerce web application with a Flask REST API backend and React.js frontend. Implemented user authentication using JWT tokens, product catalog management, shopping cart functionality, and order processing. Designed MongoDB schemas for products, users, and orders. Created a responsive UI with React components and Bootstrap. Integrated a payment gateway for transactions. Deployed backend on Render and frontend on Vercel with proper error handling, input validation, and API documentation using Postman.

Student Management System

Django, Python, SQLite, Bootstrap

Developed a web-based student management system using Django. Features include student registration, view and update student records, delete entries, and an admin dashboard for managing all data. Used Django models and ORM for database management with SQLite. Implemented search and filter functionality by name, course, and enrollment year. Applied role-based access control to restrict admin and student views. Designed a clean, responsive interface using Bootstrap for ease of use.

CERTIFICATIONS & TRAINING

Python Programming Certification

Udemy Foundation

Completed comprehensive Python course covering Basics, Object-Oriented Programming, Flask framework, Data manipulation with NumPy, and visualization with Matplotlib. Gained extensive hands-on experience in Python application development and backend systems.

Career Essentials in Professional Development

NIIT Foundation

Completed professional development training on Personality Development, Communication Skills, and Teamwork. Enhanced soft skills and professional competencies required for modern work environments.

Web Development

Infosys Foundation - Aspire for Her

Gained exposure to modern web development technologies including React, Flask, HTML5, CSS3, and JavaScript. Built responsive user interfaces following industry best practices. Learned project-based development workflows and collaborated in team environments.
